

Trails & Activities

Nipika Mountain Resort is surrounded by a magnificent trail network, the Cross River Canyon Recreation Site. It is set along the Kootenay and Cross River valleys with mountain, river, and forest views.

The best part is the trail access begins right from your cabin door! Trails run north and south of the resort with beginner, intermediate, and expert terrain.

Summer Trails - Hop on your mountain bike, grab your hiking poles, lace your trail runners, and get out there! With flowy singletrack, playful rocks and roots, doubletrack with wild strawberries, and wildflowers aplenty there is something for all to enjoy.

Over 50km of trails await, so talk to a staff member, grab a trail map, or check out TrailForks to find your next adventure.

Summer Activities - The Yearling Creek Disc Golf course is 18-holes of fun in the forest. A picturesque pond, lawn games, fire pits, and sauna ensure you won't run out of activities!

We offer two guided hikes: an interpretive hike that stays on trails around Nipika and an alpine hike. Both are exceptional days in the mountains! We also offer mountain bike lessons in summer, for those who are just beginning and riders who want to improve their skills.

Winter Trails - Fifty kilometres of expertly groomed cross country ski trails for classic and skate technique, over 30km of fat bike trails groomed into wide corduroy, and singletrack snowshoe trails. It's a winter paradise!

Our rental shop offers cross country skis, boots, and poles for all ages; fat bikes and helmets for adults and youth; and snowshoes for all ages.

Winter Activities - Sledding on Mt. Sledmore and skating on the frozen pond are quintessential Canadian experiences! Sitting by the fire pits and relaxing in the sauna are first-rate ways to end an active day.

Cross country ski lessons are offered throughout winter, for both classic and skate skiing and for those just starting out to those looking to sharpen their technique.
